

Change is in the air!

WILLOW

MEDICAL AESTHETICS

thank
you

Your response to our reopening has been amazing - we are so grateful.

'Thank you' seems such a simple phrase but it truly comes from our hearts. You have embraced us through this transition and we can only express our deepest gratitude.

Your continued support, encouragement, patience and delight at hearing from us on the phone, is only exceeded by the wide smiles upon entering our clinics once again. **It is also been wonderful to see so many friends again.**

We have worked tirelessly to implement new COVID-19 safety protocols in order to make our clinics safe for all of you and our entire team.

From all of us here at Willow Medical, thank you for supporting us and allowing us to take care of you.

Your Willow Team

Finally...

getting our
summer
on!

Tantasia from Jane Iredale is back!

but only for a limited time...

Get a safe summer glow and keep it, too, with Tantasia® Self Tanner & Bronzer, back for a limited time. This clean, lightweight formula bronzes instantly while helping to build your natural tan for sun-kissed skin without the exposure.

Our own Team Willow member, Lisa, shares her experience with Tantasia:

"I've tried other self-tanners in the past and they never applied this beautifully and easily! I used to end up with stained hands, nails and clothing along with a blotchy, fake-looking tan that just wasn't worth the time, money or effort.

Tantasia is awesome! Super easy to apply and leaves your skin glowing naturally and evenly and it smells lovely too! It cleans up easily off of hands and I especially love that I can trust the safety and integrity of the product line - Jane Iredale uses natural and mineral based ingredients in their skin care makeup products. Win-Win-Win"

SUMMER GLOW TIME FACIALS!

Summer is finally here and it's glow time!

At Willow we love therapeutic facials. These medical grade facials are more than just facials, they are treatment sessions.

We are passionate about your skin and when we do a facial we aim for the best results!

This summer we will be focusing on 3 of our most sought after treatments.

1. **Hydrafacial**
2. **Mesofacial**
3. **Dermaplaning**

We are also bringing you a variety of add-ons to try. These will boost your treatment and add that special touch to give you the ultimate glow you want this summer!

Chemical Peels
LED Light Therapy

BOOK APPOINTMENT

THE FACIALS:

Hydrafacial MD® is an award-winning non-invasive treatment unlike any other procedure, as it effectively hydrates, resurfaces, and rejuvenates the skin, without the use of lasers or the need for downtime. HydraFacials are completely customized to suit your individual skin care needs and are an excellent choice for all skin types and concerns, including fine lines and wrinkles, elasticity and firmness, skin texture or tone, brown spots, congested or oily skin, and enlarged pores.

[Learn more...](#)

Mesofacial. Mesotherapy is a technique that infuses different formulations of vitamins, minerals and amino acids into the skin to rejuvenate and tighten skin.

[Learn more...](#)

Dermaplaning is a highly effective manual exfoliation technique utilizing a stainless steel surgical tool to gently remove dead skin cells and fine vellus hair, also known as "peach fuzz". Other benefits include the diminished appearance of dry fine lines and improved skin texture. It increases the absorption of skin care products, provides an instantly glowing skin and speeds up new healthy cell production.

[Learn more...](#)

THE ADD-ONS:

Dermabuilder® Advance Age-Refining Peptide Complex is designed to reduce the appearance of fine lines and wrinkles and enhance skin elasticity.

[Learn more...](#)

Britenol® Intensive Spot Corrector Designed to brighten and balance skin tone, while minimising the appearance of dark spots.

[Learn more...](#)

Medical grade chemical peels exfoliate and stimulate the skin to correct common skin conditions.

[Learn more...](#)

Lymphatic drainage is utilised to remove waste products, help reduce fluid retention, puffiness and increase circulation. This will lead to increase absorption of products and overall results.

[Learn more...](#)

LED light therapy is a non-invasive procedure that is absorbed by the skin where it activates specific cellular processes to produce a therapeutic effect. It uses clinically proven wavelengths to recharge these cells, energizing them to heal quicker and rejuvenate faster, thus promoting healing from the inside out. The cell metabolism then builds collagen, increases elasticity, boosts circulation, accelerates tissue repair, and kills bacteria.

Purchased facials must be redeemed by October 31st to receive the FREE add-ons. After this time any unused purchased facials will remain available for use, but free add-ons will expire. Please note that certain add-ons are treatment specific and can not be used with all treatments. Please ask staff for details. Not to be combined with other promotions.
